**SAFE DELIVERY OF ABRASIVE
BLASTING, COATINGS AND
FIREPROOFING SERVICES.**

PROTECTING YOUR INVESTMENTS FOR THE FUTURE.

Lasso Maintenance specializes in the delivery of abrasive blasting, industrial painting, fireproofing and related services to the oil sands industry. Founded in 1993, LASSO Maintenance has been assisting oil sands operators and other companies to maintain their facilities and equipment in this harsh region of northern Alberta. A member of the Alberta Building Trades, Lasso Maintenance has access to many of the most qualified tradesmen and technicians in Canada. This combination of skilled labour, specialized equipment and leading safety standards enables Lasso Maintenance to meet and exceed client requirements.

SAFETY FOCUSED

Lasso Maintenance operates under a philosophy that, “Everyone Arrives Home Safe Everyday.” The target is for zero incidents and zero recordables each and every day. Lasso Maintenance is a repeat winner of the President’s Safety Award from Syncrude Canada and has also been recognized as a winner in the Worksafe Alberta Program. Our employees are also required to complete a range of safety training courses as well as training to operate specialized equipment. Other training includes computer based training as well as required training from our clients, industry associations and legislative requirements.

FIREPROOFING AUDIT PROCESS

Lasso Maintenance has developed a unique fireproofing audit process to help our clients’ engineering departments to access fire hazard zones that reflect the most recent plant configuration processes. The fireproofing audit process includes a field audit phase to locate, identify and document facilities in order to prioritize deficiencies and rank functional life span of existing systems. The fireproofing audit process also generates a number of strategic benefits for our clients including a proactive planning tool to address deficient fire protection issues, identify high risk structural failures and an accurate estimate of maintenance costs for future fireproofing.

SPECIALIZED ABRASIVE BLASTING

Lasso Maintenance continues to be recognized as a leading provider of abrasive blasting services within the industrial market. Abrasive blasting provides a number of significant advantages for our clients, most notably easier and more effective inspections and more efficient and timely equipment repairs. Abrasive blasting combined with our painting and coatings expertise enables our clients’ facilities and equipment to be well maintained and have an extended operating cycle.

SERVICES AND TECHNOLOGY

Industrial Painting and Abrasive Blasting Services

- Tanks—Internal and External Coatings, Plural Component Application
- Pipelines—Field Joint Coating, Cleaning and Recoating
- Abrasion Resistant Linings and Coatings
- Maintenance Programs
- Shot Peening
- N.A.C.E. Level III Inspections
- Mobile Abrasive Blasting units
- Mobile Abrasive Vacuum units
- Mobile High Volume Heaters
- Commercial Painting

Fireproofing Services

- Industrial Fireproofing Licensed Applicator Pyrocrete 241
- Provide Detailed Audits on Existing Fire Zone Areas for Integrity, Priority and Budgeting Purposes
- Facilitate Planned Maintenance Strategies and Schedules
- Provide Project Specific Contracting and Long-term Maintenance Services
- Experienced in All Phases of Industrial Fireproofing
- Affiliated with Plasterers and Cement Mason Local 222

Large Fleet of Equipment

- 825 CFM Sandblast Units
- 900 CFM Sandblast Unit
- Hurricane 655 Vacuums
- 1600 CFM Compressor
- 53 Ton Sand Silo
- 8 Ton 4 Outlet Sandblast Pot
- 750,000 BTU@ 6,000 CFM Heater
- 3.2 MILLION BTU@ 22,000 CFM Heater
- 400000 BTU Heater
- Line Lazer Pumps
- Conventional Spray Pots
- Plural Component System
- Nelco Shot Blaster – Floor Coatings
- 3000 PSI Pressure Washer
- Graco Airless Pumps
- 185 CFM Compressor
- 5 Ton Trucks
- Pick-up Trucks

SUCCESSSES

Painting and Abrasive Blasting

Syncrude Canada Ltd.
Fort McMurray, AB

PROJECT HIGHLIGHTS

- Syncrude Site Wide Contract — Maintenance, Painting and Abrasive Blasting
- Extraction Column Line 21 — Abrasive Blasting and Coating Structural Steel
- Floating Roof — Tank Linings
- Potable Water Tanks — Tank Linings
- Extraction Rougher Cells Tank Linings
- Extraction PSV’S — Tank Linings
- Tailings Pipeline Project — Pipe Coating
- Power House — Floor Coating
- Clarifier — Tank Lining
- Treated Gas Oil — Reinforced Tank Linings
- Cooling Towers Power House — Colour Coding of Piping

Suncor Energy Oil Sands
Fort McMurray, AB

PROJECT HIGHLIGHTS

- Structural Steel Project
- Steel Painting

Fireproofing

Syncrude Canada Ltd.
Fort McMurray, AB

PROJECT HIGHLIGHTS

- Syncrude Site Wide Contract — Fireproofing Maintenance
- Plant 7-1 7-2 at Syncrude for Brown & Root — Fireproofing Debottleneck Project — Fireproofing Services
- Syncrude Site Refurbishing Project — Fireproofing Services
- Plant 8-1 Coker Expansion at Syncrude for Brown & Root — Fireproofing Services
- Aurora DBII Project at Syncrude for Brown & Root — Fireproofing Services
- Syncrude UE-1 Upgrader Expansion — Fireproofing Services

Suncor Energy Oil Sands
Fort McMurray, AB

PROJECT HIGHLIGHTS

- Suncor Millennium Project, Millennium Construction Contractors — Fireproofing Services
